

## CARTRIDGE CONTROL OPTIONS

<b>T</b> <b>Three-winged Handknob Kit</b>	<b>J</b> <b>Control Kit, Max. Setting Limiter</b>				
<p>This control kit can be used on most of Winner's cartridges. The installation of this kit is intended to be permanent. Once assembled to the cartridge, it cannot be easily readjusted or disassembled.</p>	<p>The J Control kits use for the setting of the cartridges. They can be adjusted within their specified range not to exceed the new permanent maximum setting. The J Control kits use for the setting of the cartridges. After leakproof hex. socket screw is set to the maximum allowance pressure or flow, first to take off "the maximum setting limitation C spring" and then turn the J Control kits until touching lock nut. Finally, insert the pins and drive pins in until flush in J Control kits. The installation of this kit is permanent. It cannot be readjusted or disassembled.</p>
