

Operating instructions Compax3 Fluid T30: Programmable motion control according to IEC61131-3

Hydraulics Controller

192-121101 N06
Oktober 2014

Release as from R09-63

10. Order code

In this chapter you can read about:

Order code device: Compax3 Fluid.....315
 Order code for accessories.....315

10.1 Order code device: Compax3 Fluid

	C3	F	0	0	1	D2	F12	L20	T30	M00
Hydraulics Controller		F								
Type			0	0	1					
Supply voltage 24VDC						D2				
Feedback Module							F12			
Interface:										
Control via Inputs/Outputs									I11	
Control via Inputs/Outputs or COM interface									I12	
Profibus DP V0/V1/V2 (12Mbaud)									I20	
CANopen									I21	
DeviceNet									I22	
Ethernet Powerlink									I30	
Ethercat									I31	
Profinet									I32	
Technology functions:										
Positioning (available as I12T11 & I20T11 & I32T11)									T11	
Motion control programmable according to IEC61131-3									T30	
Motion control programmable according to IEC61131-3 & electronic cam extension									T40	
Options:										
no additional supplement										M00
Expansion 12 digital I/Os & HEDA (Motionbus)										M10
HEDA (Motionbus)										M11
Expansion, 12 digital I/Os										M12

10.2 Order code for accessories

Order Code connection set for Compax3 Fluid

The corresponding connection sets are furnished with the device
 for C3F00xD2 ZBH 02/04

		/	
ZBH	0 2	/	0 4

Order code for feedback cables

X11, X13 with connector for Balluff BTL series with SSI- and Start/Stop interface

		/	
GBK	4 0	/

X13 Feedback cable EnDat2.1

GBK	4 1	/
